## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a replicase complex comprising an HCV NS5B protein, a nucleic acid and a primer, classified in class 530, subclass 350 and class 536, subclasses 23.1 and 24.33. If applicant elects this group, applicant is further required to elect a specific primer sequence from claim 2 because each primer sequence is structurally unique and would bind to different portions of the template.
- II. Claims 5-19, drawn to an assay system to detect HCV replicase activity, classified in class 435, subclass 5.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions possess different products and are not disclosed as being capable of use together. The replicase complex of group I and the assay system of group II also have different modes of operation because of the different products present in each group, which result in different effects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1648

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
